4 ADVANTAGES & DISADVANTAGES

ADVANTAGES:

1. It provides you access to the best medical doctors & specialists.

2. Smart Doc can be used from wherever you are.

3. It's extremely easy to use and is convenient.

4. You save time by avoiding long queues and waiting times.

5. It is continuous health management helps you monitor your health, 24/7

DISADVANTAGES:
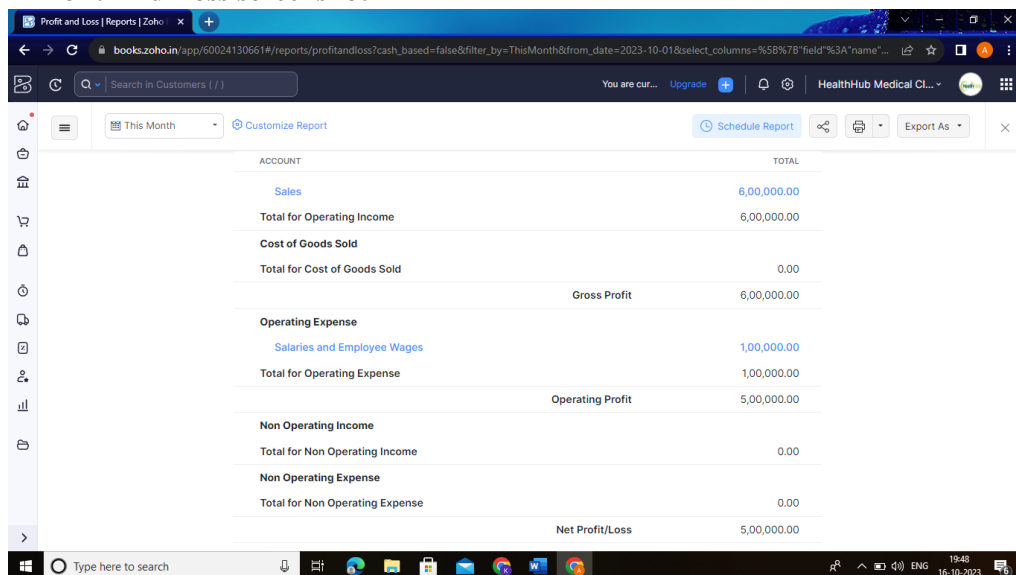

1. Patients may struggle to rest in uncomfortable beds, especially if the room, bed, and sheets are all white and there are bright lights.

2.To remedy this, some hospitals use soothing colors for their rooms and linens, and dim the lights as much as possible.

3. Tile floor can be problematic for barefoot patients who have problems regulating temperature.

4. This is often resolved by providing socks with treads to prevent the patient from slipping.

5.Patients are often separated from their family, which can cause stress. Some hospitals have extended visiting hours in response to this observe.

5 Application

We take the things from apps that we found. In addition of during the class which is filling the gap made because of the lack of non-verbal communication Also, we would make app with more clarity, because we wouldn't use a simple subject-student structure, but would use a triangular one (Subject-professor, and professor-student and subject-student) that way on professors profile students could find what subject they have, and which fields of study are theirs. Also, we would add a social-network component in order to help students connect with each other and with professors, building some kind of resume on the app, this is the best way to make online networking Besides that, when making a classroom, teachers can choose one of a few class modes, standard meeting, workshops, conferences, seminars etc. (Something like interfaces of the apps Gather Town World Wall, Zoom, Teams...) This way the app can be used to make studying more interesting, and even maybe to use it for non-formal education.

6 CONCLUSION

Profit And Loss screenshot

Balance Sheet Screenshot

ACCOUNT	TOTAL
Current Liabilities	
Accounts Payable	3,36,000.00
Unearned Revenue	8,26,000.00
⬤GST Payable	0.00
Output CGST	54,000.00
Output SGST	54,000.00
Total for GST Payable	1,08,000.00
Total for Current Liabilities	12,70,000.00
Total for Liabilities	12,70,000.00
Equities	
Owner's Equity	1,00,000.00
Current Year Earnings	95,000.00
Total for Equities	1,95,000.00
Total for Liabilities & Equities	14,65,000.00

7 FUTURE SCOPE

Our future scope is to some change in P&LA/C and balance sheet because of we did not find the mistake Place. In the future scope it will rectify. Scope contain three parameters service name, scope name, operation type. The format to define scope is service name . For example you can generate a scope To create or view user information and so on.

8 APPENDIX

☐ Use ICT tools and digital game-based learning.
☐ Differentiate between students.
☐ Use the flipped classroom model.
☐ Encourage cooperative learning.
☐ Communicate with colleagues.
☐ Communicate with parents.
☐ At the heart of Edu Connect is the idea that no child should be deprived of education due to their
location. The project sets up digital learning centers equipped with computers, high-speed internet,
and interactive educational content. These centers serve as a hub for students to access online courses,
video lectures, and interactive simulations.
☐ Since its inception, Project Edu Connect has witnessed transformative impact. Students who were once
limited by their geographical location now have access to a wealth of educational resources. Increased

attendance, improved academic performance, and a renewed enthusiasm for learning have been
reported in these rural areas.
